

STRATUM GUARD® I & II SYSTEMS

Moisture Drainage EIF Systems Over Wood Substrates

DSC440C

For An Extra Level of Moisture Protection

Dryvit® now offers an EIF system for use over wood substrates that provides exceptional moisture drainage protection. The Stratum Guard systems from Dryvit have been engineered specifically for residential and light commercial construction. Stratum Guard offers unparallel protection and insulating performance for your wood-based building project.

Systems Components

1. Air/Water-Resistive Barrier Coating : Backstop™ NT (Texture) and Dryvit Aquaflash® Mesh
2. Dryvit Aquaflash System or Dryvit EIFS Tape and Surface Conditioner
3. Dryvit Drainage Strip adhered with Dryvit AP Adhesive
4. Dryvit Adhesive in vertical notched trowel configuration using the Stratum Trowel.
5. Grooved Insulation Board (Stratum Guard II)
6. Dryvit Reinforced Base Coat
7. Dryvit Finish

Same Outstanding Weather Protection and Product Features

With the Stratum Guard Systems, you get two levels of weather protection plus all the features that have made our wall systems best in their class:

Energy Efficiency - The system incorporates an insulation board, which is installed on the outside of the framing, effectively sealing thermal bridges, reducing energy loss and providing a more consistent interior temperature.

Design Flexibility - Choose from a multitude of colours and textures to give the project your distinctive touch. The Stratum Guard System allows for affordable and impressive entranceways, window borders, arch-es, columns, sculptured looks and more.

Durability - Dryvit Systems have been tested and proven in exhaustive studies for impact, fade and stain resistance. Dryvit's DPR (Dirt Pickup Resistance) finishes and PMR™ (Proven Mildew Resistant) finishes offer owners state-of-the-art performance. Dryvit systems, as with all other exterior claddings, require nominal maintenance (refer to Dryvit's Homeowner's Maintenance Guide, DS235)

Dryvit - Proven for Over 35 Years

Dryvit Systems Canada is an ISO 9001:2000 registered company. ISO standards have been established worldwide as a common denominator for product excellence. Dryvit is the recognized leader in EIFS technology. With leadership comes an obligation and commitment to research and development. The Stratum Guard system is an example of our determination to continuously evaluate market demands and develop new and exciting products.
